

Project and Materials Storage

Safety Rules

Everything left at hackspace is done so at your own risk.

Everything left at hackspace **MUST** be labelled with an appropriate Do Not Hack sticker, or it may be hacked by others.

Project Box Storage lasts for three months

Put your name on it. You can refresh the sticker as necessary, or ask someone else to if you are unable to get to the Hackspace.

Short Stay Stickers last for one month

Short Stay stickers apply to everything that isn't a project box. Put your name on it. You can refresh the sticker as necessary, or ask someone else to if you are unable to get to the Hackspace.

Everything left at Hackspace is done so entirely at your own risk.

This storage is not secure. Materials with expired "Do not hack" stickers may be hacked at any time.

Other Storage

If you have a short-stay item that absolutely won't fit on the rack, and you have no choice but to leave it briefly somewhere else in the space, please ensure that you:

Ask forgiveness on the forum, with the details of what, where, and how long.

Put it somewhere that minimises inconvenience to others (eg: Try not to block a workspace).

NEVER leave it in the Woodshop or Metalshop.

Ensure it does not create a hazard (eg: by blocking the fire escape).

Remove it as soon as possible.

Place a 'Short Stay' sticker on it, giving the date it was left there.

Everything left at hackspace is done so at your own risk.

If a machine is not clean or appears broken, report it to the forum. Clean/fix prior to use.

Report any damage, issues or accident within 24 hours to the forum.
